Waschanleitung für farbige Stickereien.

Die schonendste Wäsche erfolgt für alle mit BURMILANA bestickten Artikel bei 40°C. Wählen Sie bei Maschinenwäsche dafür das Wollwaschprogramm und verwenden Sie ein Woll-/Feinwaschmittel (verwenden Sie Waschmittel, die keine optischen Aufheller enthalten, da diese Zusätze Farbtonveränderungen verursachen können). Bestickte Teile dürfen niemals in feuchtem oder nassem Zustand aufeinander- oder zusammengepreßt liegenbleiben. Bestickte Artikel nicht auswringen. Bügeln sollte entweder von der Rückseite oder zwischen zwei Tüchern erfolgen. Fleckenentfernung nur mit Mitteln, die weder Bleichmittel noch Entfärbemittel enthalten. Danach sofort eine Maschinenwäsche vornehmen. Nicht Schleudern, bevor gründlich gespült wurde!

Rohstoffbedingte Farbabweichungen sind möglich. Verschiedene Partien bitte getrennt verarbeiten!

Wash embroidered items immediately after using any stain remover. **Do not spin dry unless the item has been thoroughly rinsed!**

Shade variations are possible due to the nature of the raw material. Therefore please don't mix dye batches!

Instrucciones para el lavado de bordados en colores.

El lavado más aconsejable para todos los artículos bordados con BURMILANA debería ser a una temperatura de 40°C. Seleccione en su lavadora el programa de lanas y utilice detergente suave o de lanas (no utilice detergente que contenga productos blanqueadores tales como peróxido, cloro o blanqueadores ópticos porque pueden provocar cambios de color). Nunca deje plegadas o apretadas húmedas o mojadas las ropas bordadas. Nunca escurra ropa bordada. El planchado debe ser realizado del revés o entre dos paños. Para quitar manchas utilice únicamente productos los cuales no contengan blanqueadores ni decolorantes. Seguidamente lave la ropa bordada en su lavadora. **¡No centrifugar sin antes haber enjuagado cuidadosamente!**

Las variaciones de tonalidad son posibles debido a las características de la materia prima. Por favor no mezclar los diferentes lotes.

Istruzioni di lavaggio per capi ricamati colorati.

Il lavaggio più accurato per tutti i capi ricamati con il filato BURMILANA avviene a 40°C. Per lavaggi a macchina selezionate il programma di lavaggio per capi di lana e utilizzate detersivi per lana e capi delicati (utilizzate detersivi che non contengano candeggianti come perossido o cloro e sbiancanti, perché gli agenti chimici contenuti possono provocare cambiamenti del colore).

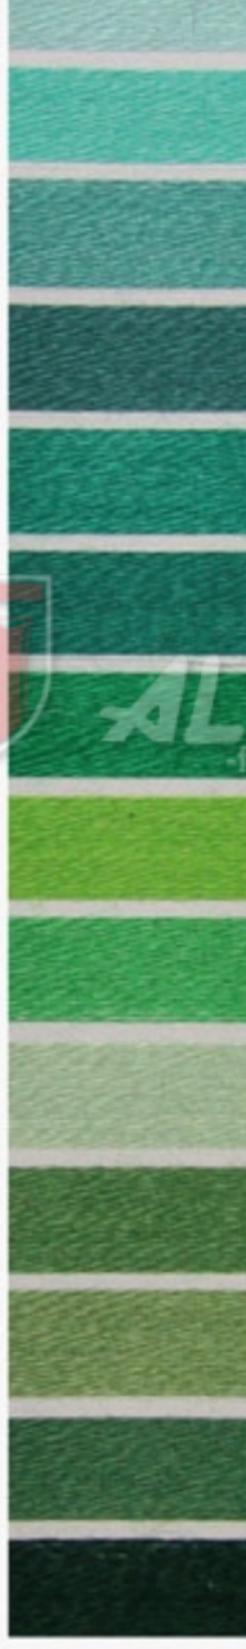

I capi ricamati non devono mai essere lasciati pressati, ripiegati e ammucchiati quando sono bagnati o umidi. Non torcere mai i capi ricamati. I capi ricamati devono essere stirati al rovescio oppure tra due teli. Per rimuovere le macchie si dovranno utilizzare solo prodotti che non contengano né candeggianti né decoloranti. Dopo aver rimosso le macchie si dovrà procedere subito al lavaggio a macchina. **Non centrifugare prima di aver risciacquato i capi accuratamente!**

A causa del carattere speciale della materia prima non possono essere evitate leggere differenze nella tonalità di colore tra le diverse partite. È consigliabile lavorare sempre con filati dello stesso bagno!

Instructions de lavage pour broderies de couleur.  
Vous prendrez soin au mieux de tous les articles brodés en BURMILANA en les lavant à 40°C avec une lessive pour lainages ou textiles délicats et le programme de lavage correspondant. Veillez à n'utiliser que des lessives qui ne contiennent pas d'agents blanchissants tels le peroxyde et le chlore, ni d'agents d'azurage car ces additifs peuvent altérer les couleurs. Il ne faut jamais entasser les uns sur les autres des articles brodés qui sont encore humides, ni les tor dre. Le repassage devra se faire soit sur l'envers, soit entre deux serviettes. L'élimination de taches devra se faire exclusivement avec des produits sans agents blanchissants ni décolorants, et sera immédiatement suivi d'un lavage en machine. Il faut éviter d'essorer les broderies si elles n'ont pas été bien rincées au préalable.

La nature même de la matière première peut faire varier les nuances. C'est pourquoi il faut éviter de mélanger les lots!

Рекомендации по стирке цветных вышивок.  
Для всех вышитых нитками BURMILANA изделий следует использовать щадящую стирку при 40°C. Для стирки в стиральной машине Вам нужно выбрать программу стирки шерсти и использовать стиральный порошок для деликатных тканей (используйте порошки, не содержащие оптические отбелители, так как эти добавки могут вызвать изменения цвета). Влажные или мокрые вышитые части никогда не кладите друг на друга, не спрессовывайте их вместе. Вышитые изделия не отжимать. Гладить изделия можно с изнаночной стороны или через гладильную ткань. Удаление пятен возможно только без использования отбелителей или растворителей. После удаления пятен изделие следует постирать. Перед отжатием в центрифуге изделие следует тщательно прополоскать.

Возможны отклонения в цвете, связанные с отклонением в сырье.
